Dr. Torsy's Address.

The Assembly room of the new school was filled with an appreciative audience on Thursday evening last to hear Dr. H. M. Torsy, President of Alberta University on "Secondary and Higher Education."

The chair was occupied by Mayor H. H. Gaetz in a most acceptable manner. He congratulated the Dr. on being a Nova Scotian and remarked that many great men came from that province, including himself, (laughter) and they were known as blue noses. He spoke of the advance education was making in the west, and said we were as a great giant lying dormant for ages, and only now awakening from sleep. The aborigines had not been able to grasp the idea of education, they slept. If we wish to advance we must first promote education. He was glad to see the people of Red Deer give Mr. Torsy so hearty a welcome.

Dr. Torsy opened his address by expressing gratification at such a large attendance, and the interest taken in education by the people of Red Deer. He reviewed the change which has taken place in the world, as we know it, during the last hundred years, and attributed the great progress the world has made of late in the education of the masses. In olden times, the classes had their education in a way, but the primary or public schools are of later date, and go to make the people what they are to-day. But we are only beginning to realize what this great privilege of advanced education means to the masses. He expected, some day, to see a great university with thousands of students therein, on the banks of the Saskatchewan.

Rev. Mr. Huestis moved a hearty vote of thanks to the speaker.

W. E. Payne seconded the motion which was carried unanimously.

Mrs. Dr. Collison favored the audience with two solos during the evening, beautifully rendered. Messrs. McQueen and Morris played the accompaniment.

T. F. Ellis Seriously Ill.

T. F. Ellis, the well known and popular proprietor of the Arlington Hotel, who was suffering with a severe cold last week, received a stroke on Monday morning last about seven o'clock. He was in a critical condition for a time, but after he was bled he became somewhat easier and at the time of writing he is much improved, being able to take a little nourishment. He is conscious but the right side of the body and left side of the head is somewhat affected. It is hoped he will recover sufficiently to be around again in a short time. Mr. Ellis is a man of strong physique, bluff and hearty and has many warm friends in all parts of Alberta, who hope for a speedy recovery. Mrs. Ellis has the sympathy of all in her trouble.

District Court.

The District Court was in session all last week and has not yet adjourned. A number of cases were disposed of, Judge Noel has made all parties feel at home, if that were possible in a court of this kind, and that justice will be done. The following is a list of the cases which were before the court. Hutchison vs. Stevenson, Beckett vs. Fleming, Fraser vs. Clover, Western Hardware Co. vs. Fincham, De Laval Co. vs. Adams, Atkinson vs. Ross, Baker & Payne vs. Derbyshire, Shoon vs. Brethour, Leslie vs. Bawlinheimer, Hewson vs. Brown, Green & Payne vs. Red Deer Nursery, Hemsworth vs. Short, St. Clair vs. Short, Thibodeau vs. Hookett, Warko vs. Langevin, Warko vs. Shute, Addy vs. Joyce Ryan vs. Brethour, Millen vs. Smith, Mitchell vs. Walker, Whipp vs. Walker, Smith & Gaetz vs. Peels, Davies vs. Baker, Wheeler vs. Porter, Dearinger vs. White, Ellwell vs. Nash, Ash Lee vs. Mar Lee, Hill & Horn vs. Brynn, Western Hardware Co. vs. Clarke, Rich vs. L. I. D. 19 A 5.

Some of the cases have been withdrawn others have not yet been tried. The judge has waited patiently for witnesses and cases until even his patience has become almost exhausted. It is expected the court will adjourn to-morrow.

The Seed Fair.

Friday last the seed fair was held in Alexandra Hall and was not as largely attended as a fair of this nature calls for. There was a splendid exhibition of grain and seed, and Judge McKillop was highly gratified.

The prize winners were as follows, the figures being the government list of the seed: Spring wheat, hard—T. P. Parsons, Preston, 2nd 95; Jno. Greening, Preston, 3rd, 96.

Winter wheat, hard—George Domoney, Alberta Red 2nd, 83; Thos. Bigam, Alberta Red 3rd, 84.

Winter wheat, soft—C. A. J. Shannon, Dawson's Golden Chaff 1st, 99.

Oats, long—C. A. J. Shannon, Banner, 1st 98; Jas. Bower, Banner, 2nd 100; Joseph Northey, Banner 3rd 100.

Oats, short—T. P. Parsons, Ligo, 1st 99; J. H. Comfort, Tarlar King, 2nd 83; T. P. Parsons, Ligo, 3rd 75.

Barley, 6 rowed—J. H. Comfort 1st 99; Thos. Bigam 2nd 98.

Barley, 2 rowed—T. P. Parsons, 1st 94; C. A. J. Shannon 2nd 84.

Timothy seed—Jas. Bower 1st; Jas. Speirs 2nd.

Rye—A. P. Olson 1st; James Bower 2nd.

Eye grass seed—Jas. Bower 1st.

Grain from field competition, wheat, 1st Geo. Domoney.

The grain judging school on the seed train was patronized by a number of farmers after dinner and some excellent addresses were delivered by the speakers.

A. F. A.

A special meeting of the A. F. A. was held on Monday afternoon when the association drew up a resolution dealing with the Beef Commission report. It will be forwarded to our member for presentation to the government.

A special meeting is called for Friday 28th of February.

Died From Injuries.

Catharine Rosina Beatrice Campbell, the five year old daughter of William Campbell, of Craighall, Bowden, who was reported in these columns about a month ago as having been seriously burned through her dress catching fire from a pile of rubbish which was being burned in the yard, died on Saturday morning last about 9.30. It is some source of comfort to the bereaved parents to think that their little daughter did not suffer as much pain as she might have done. After the first day or two the pain seemed to have left and she seemed to be getting along nicely. The doctor was in daily attendance for some time, but as she appeared to be doing so well the visits were cut down recently. She was unable to take any solid food and had she lived would have been badly disfigured.

Mr. and Mrs. Campbell have the deepest sympathy of all in their trouble. Mr. Campbell is an old timer, having homesteaded on his present farm in 1892 and resided there ever since.

Catharine was a bright, jolly girl who had previously never had a day's sickness.

The funeral took place on Monday at 2 p. m. from St. Mark's church, Innisfail.—Province.

NOW IS THE TIME FOR LISTING.

If you wish to sell your Farm or Town Property, you will do well to leave a description at our office at an early date. We are getting ready for the Spring rush, and we are placing ourselves in touch with a great many prospective buyers.

Let us have particulars of your property, so that it may be included in our new printed list.

Michener, Carscallen & Co.,

REAL ESTATE SELLERS.

Curling.

C. Ouimette, H. Wallace, H. H. Humber, and A. T. Stephenson sk., and H. L. Gaetz, W. Baird, W. Hoskins, and R. B. Walliver, sk., were at the Wetsaskwin Bonspiel last week. Stephenson was unaccustomed to those northern latitudes and had hard luck. Walliver got to the semi-finals in the Queen's Hotel Trophy, but was forced to default to the visitors owing to coming home for the Seed Fair Friday. He won 4 out of 6 games. Trimble of Lacombe, won the Grand Challenge.

In the Scott Cup competition R. W. Smith and Wilson ties. Humber defeated Hanna. T. A. Gaetz defeated McKinnon. Wallace defeated Baird.

Hockey.

The Waskasos met the Firemen for the first time, since Christmas day, on Wednesday evening last. They started off very fast and kept the puck near the Firemen's goal and in a few minutes scored amidst great excitement. "This is to be an easy thing," said some of the Waskasos supporters. But the Firemen did not seem to get very much frightened and for the rest of the game kept the puck well up the ice. The Firemen played good combination while the Waskasos were more given to individual rushes, which, though brilliant enough, were generally checked. The score at half time stood 2-1 in favor of the Firemen.

Shortly after half the Firemen again scored and in a few minutes the Waskasos put in their second goal. After that the weight of the Firemen told and they kept up a continual fusillade on the Waskasos goal and the score at time stood 5-2 in favor of the Firemen. Dan Smith refereed, and kept a sharp eye on the off-sides and kicking the puck.

On Monday night the Wigwams were up against the Firemen and a very close game was the result. The Wigwam put up a better game than was expected and had it not been for Gummy Watson being the right man in the right place they might have won out, but the Firemen played better combination and won out by the score of 3-2. Following was the line up:

Wigwam	Goal	Firemen
Hanway	Watson	B. Hewson
Syres	point	W. Beckett
Richards	cover	M. Beckett
Porter	rover	C. Hewson
A. Cornett	centre	F. Cornett
Smith	right wing	L. Handford
W. Krause	left wing	D. Smith
Dan Smith	referee	J. Brumpton
F. Reinhold	goal umpires	

This game gives the Firemen the lead in the league the standing being as follows:

	played	won	lost
Firemen	5	4	1
Waskasos	4	3	1
Wigwams	5	0	5

The Firemen and Wigwams have one more game to play each, and the Waskasos two to finish the present schedule.

The Lacombe team will be down to play the locals to-morrow night when a fast game is expected. The game will start at 7.30.

Watch for the bills of the grand dramatic entertainment "The Queen of Hearts" in the Lyric at an early date.

W. L. GIBSON, MANAGER.

Old Home Week.

By LULU JOHNSON.

Copyright, 1917, by M. M. Cunningham.

Billy Sugden read the pamphlet through from cover to cover, from the first glowing line, "Old Home Week," to the imprint of the "Bibleville Mercury Book Print" on the last page of the cover. Somehow the little booklet seemed to have almost the value of a message from home. He could even tell which part of the text, the editor of the Mercury, had written and which portions were the product of the Rev. John Dudley, the Presbyterian minister, who has literary aspirations.

One paragraph in particular appealed to him. It ran, "We have set a date later than most of the old home weeks so that as we, the home states, bring to a happy and prosperous conclusion the harvest of the year so may the newcomers bring with them the first fruits of their prosperity and their talents."

Whoever had sent him the pamphlet had underscored this paragraph, and Sugden felt with a glow of pride that his new found home had reached even to the old home. It was only of the last few months that he had gained the position as an illustrator for which he had fought, and fame was still very sweet to him. He could not believe of the old home, the quiet, shady streets, the trees now gorgeous in their autumnal tints, as he sat down and wrote a note of regret to the famous lion hunter who had sought to add him to his collection at Newport for that week.

On both sides of the car excited faces were pressed against the glass locating familiar people, the old home, the long line of cars swarming around the point and the gray old breakwater.

"REMEMBER IN IT REALLY YOU," HE DEMANDED.

came into sight the car rang with cheers, in which Sugden's voice was by no means the least vociferous. It was pleasant to meet the reception committee with their pompous formality of welcoming speeches, which were followed by the more genuine hand-claps. It was still more pleasant to make his way up the street and get a welcome on every hand, but through all Sugden was conscious of one thing—the absence of one person who alone could make old home week a success to him. For the first time he realized that the week meant to him Elizabeth Grantley, and it was to see her that he had come.

As he crossed the foaming little river that cut the town in two he remembered the last time that he stood on the span. He and Elizabeth had leaned against the railing, watching the swirling waters in the uncertain moonlight, while gently she had put from her the hopes that had risen in her breast and gave him the clearest evidence of her matrimonial promises. "If you really want me you will come back for me without a promise," she had whispered. "I could not bear to think of you leaving me back in your career, Billy." He had protested and argued, but the girl had steadfastly held to her point. He had failed then to perceive her point of view. He had wanted her to marry him and go with him in search of a career. When she had refused he had flung himself away, and he had not written. Now he knew that she had been right, and he longed to tell her so. "There was a bureau of information through which visitors might locate their old friends, but the sweet faced girl in charge of the registry list shook her head regretfully. We tried to locate the Grantleys to tell them with an announcement, but they explained, 'but they appear to have dropped from sight completely. I will make a note of your address in case we do locate them.' Sugden thanked her and went out feeling as though after all his roaming had been a mistake. He slipped into the opera house to listen for a while to the formal exercises for the opening day, but he found the noisy throng of people and soon sought the open air. Bridge and Court streets were brought out brilliantly by arches of incandescent lights, and in the Indian summer warmth a pushing, peering crowd made their way up and down the streets and jostled and elbowed into the gutter, while the confetti was scattered about and the feather dusters were everywhere in evidence.

With a gesture of disgust, Sugden turned from the crowd. His mood was not at all merry-making, and he sought the more quiet parts of the town. Almost unconsciously he took the familiar path that led to the little cottage where the Grantleys had made their home, and presently he found himself leaning against the fence that inclosed the well kept garden. There he lighted a cigarette and, in the soft glow of the red shaded yard from his screen he projected from his fancy scenes wherein he and Elizabeth had figured. He could see the easy laugh mock swung between the apple tree and the horse chestnut. He could picture the dainty figure in fluff white and could almost hear her hail of "I'm out here, Billy, in the hammock," as the gate clicked behind him.

Then his mind conjured the vision of the white faced girl leaning upon the railing of the bridge and pleading with him to keep his freedom that no might make his life free handed. He remembered those last few moments when he had declared that he would have nothing more to do with a girl who feared to poverty with him, and even now it seemed that he could hear her sob as she had walked through blind eyes down the street, while he had leaned against the wall and had watched her go, without a single word of comfort.

Somehow the sobbing seemed strange to him. It was almost as though a woman there in the shade of the trees was letting loose the food gases of her grief. So real did the sound seem that he flung away his cigar and vaulted the low fence, making for the direction of the sound. But, though he expected to find a woman there under the stars, it was with a shock that he did come face to face with a bowed figure. With uplifted hat and a murmured offer of service, he advanced, but the woman, who wore a gray dress, something in the pale blue of a dove, bent his head into his mouth, and, with a cry, he darted forward.

"Elizabeth! Is it you?" he cried, and he was almost as startled as the girl was at the sight of the distant street lamp he thought that he was seeing a ghost. "Laten, dear," he went on. "I don't blame you for wanting nothing to do with me, but hear me only for a minute."

"I did not know you intuitively guessed how hard the struggle would be. I did not know the conditions. I thought that with you to help me the fight I could do better. I know now that I was wrong."

"I thought that knowledge would come in time," said the girl, the "Genius in a garret" is a thing of the past. Genius to be discovered must live and dress well. I could not make you understand that. I am not a genius. "But I know it now," he assured her. "I can see that alone I could live better and at least preserve the appearance of prosperity. I was my greatest aid to advancement. And even as my career was great so in my penitence, Betty, can you find it in your heart to forgive me and admit me at least to your friendship?"

"To forgive is part of woman's life," she said wearily. "I had not intended to make myself a victim. I was only to see the old town and the old home again, but you have found me out."

"And this time I shall not let you go," he said, "not until I have proved that I have been my repentance. Look, dear, the old house is for sale. May I buy it in the hope that some day you will tell it home?"

"It has been a long wait," she said softly, "a very long wait, Billy, but I have kept my promise. I have waited alone."

Gently, almost reverently, he took her in his arms, and as his lips brushed the soft brown hair he realized that some never come to know, the depth and beauty of the woman's loving forgiveness. Sugden had found the old home—and the new.

Taking No Chances.
"It is a rule to which good lawyers usually adhere," says a Philadelphia attorney, "never to make more than one knows. There is no evidence in England not many years ago wherein a lawyer carried the rule to the extreme."

One of the agents in Midland revolution court objected to a person whose name was on the register on the ground that he was dead. The revolution attorney declined to accept the assurance, however, and demanded conclusive testimony on the point.

The old tin pan.
The old tin pan my subject is. It is not a tin pan, but it is a tin pan. It is not a tin pan, but it is a tin pan. It is not a tin pan, but it is a tin pan.

The ordinary clay pipe has under the bowl a projection or heel which would seem impossible to break from the bowl. The ordinary clay pipe has under the bowl a projection or heel which would seem impossible to break from the bowl. The ordinary clay pipe has under the bowl a projection or heel which would seem impossible to break from the bowl.

BEAST EWMS 300 MILES.

Hippopotamus Follows Its Master's Canoe—African Chief's Utensil.

The meeting in Senegal of Lord Selborne, High Commissioner of South Africa, and Lunanika, paramount chief of Batetela, was full of quaint incidents. Nothing could be more picturesque than Lunanika's arrival. A fleet of some 250 white dug-out canoes came up the river, followed by a host of the chief's own enormous boat, with its crew of thirty paddlers.

These broke from the hundreds of women assembled on the shore the royal son of welcome as Lunanika's canoe, a magnificent canoe, with its shining and black eyes sparkling with excitement, the women marched slowly forward to the rhythmic clapping of hands, chanting as they went, to the river bank, and then, with shrieks and peals of laughter, broke their ranks and raced to bathe their hands and faces in the white shell of the king's boat swam.

Lunanika's eldest son, Letia, immediately stepped in an ornate dug-out, with a full-canoe crew. After a few minutes' waiting, Lunanika himself came ashore, habited, alas! in a gray frock coat, pinkish trousers and a black hat.

The High Commissioner, with Lady Selborne and their suite, rode quietly up the river bank, and then, to Lunanika's coming. Two days later the official meeting of the white and the black took place in a large hall, with open on two sides, built of grass and reeds, and situated in a small courtyard. In the evening the paramount chief presented Lord Selborne with a young hippopotamus, which was a gift of Lunanika. It is perfectly tame and half-grown, had followed the chief's canoe 300 miles down the river, and was taken on the way. It slept peacefully through the greater part of the presentation ceremony, and was finally gallopingly mounted and ridden out of the courtyard by a member of the Paris Missionary Society.

SAVED BY CHANCE ROPE.

Shipwrecked Sailors Helped by Retic From a Previous Disaster.

A singular incident has to be recorded in the history of the shipwrecked sailors who were rescued from the steamer Netherlands, which went on the rocks near Linney Head, in Lough Swilly, on the 10th inst. The Netherlands, which was bound from Liverpool to Barry, was wrecked on the 10th inst. The ship was a small vessel, and the crew was small. The ship was a small vessel, and the crew was small.

The Netherlands, which was bound from Liverpool to Barry, was wrecked on the 10th inst. The ship was a small vessel, and the crew was small.

An Elephant Story.
A sensational accident, in which an elephant and a circus employee were killed, occurred at the circus of Donald, Victoria. After nearly causing the man's death, the elephant made a sudden dash, and the man was killed. The elephant was a small one, and the man was a small one.

One of the men employed at Wirth's, who was a small one, was killed by the elephant. The elephant was a small one, and the man was a small one. The elephant was a small one, and the man was a small one.

He was a small one.
He was a small one, and the man was a small one. He was a small one, and the man was a small one. He was a small one, and the man was a small one.

What can I do for you?
What can I do for you? What can I do for you? What can I do for you? What can I do for you? What can I do for you?

Time in Liberia.
No clock is to be found in Liberia. The reckoning of time is made entirely by the movement and position of the sun, which rises at 6 a. m. and sets at 6 p. m. almost to the minute all the year round. At noon it is vertically overhead.

IN VOGUE.

Some Dress Hints For the Clever Girl Who Sews.

What a bono the overcoat is to the woman of limited means! So many changes may be made with such little expense, for remnants that have been

OF BROCADE AND Braid.
bought as bargains and laid away may be brought forth and used to good purpose, with short pieces of embroidery and passementerie. In truth, it is a season of joy in many homes, for a single bargain is heavy on a woman's conscience.

Several pretty designs for the clever girl who sews are given in the sketch. One design has a tailored effect and would match a tailored skirt very nicely. If used over a plaid skirt and piped with velvet it would prove extremely attractive.

The other design may be of broad cloth braided heavily in any fancy design.

A TAILORED EFFECT.
sign and could be made with or without the sleeve caps and silk drop. The dress would look very well with a surface belt, so that you can see him rise to it. He may be taken in running after the current fashion, or he may be taken in running after the current fashion.

Ladies and Lead Pencils.
What peculiarity in her makeup it is that the average feminine who cope with the gigantic task of sharpening a lead pencil has never been described. Superior women there are, no doubt, who can whittle a pencil to a point as cleanly and definitely as anything in the world. It is the average woman who can comprehend Bradstreet's and who would run this government all right if they once got a chance at it. Every woman who can whittle a pencil to a point as cleanly and definitely as anything in the world.

Various Kinds of Meters.
"Meteors" and "meteorologists" have little in common, although the word is identical. "Meteor" means a great many more things to Englishmen of a few generations ago than it does now, and it is a word of many meanings in Greek antiquity, which signified "in the air," so that "a meteor," the things up in the air, meant the heavens, and the things down in the air, meant the earth. The word "meteor" has gone over altogether to the astronomer's sphere.

Duke Necklace Finished.
With the possession of a pearl "dog collar" necklace, for which her husband paid \$200,000, Mrs. James B. Duke, formerly in the hands of a man of Atlanta, now in his readiness for her ambitious effort to enter the ranks of the New York Four Hundred. With a necklace of pearls, she was a woman of the New York Four Hundred.

Infinitesimal Shears.
A clever workman in a cutlery factory in Sheffield, England, made a set of pairs of shears, each so minute that they altogether weigh less than half a grain. That is about the weight of a postage stamp, and the shears are perfect and will cut it sufficiently delicate to be used as a piece of white paper they seem no larger than dust.

An Easy Mark.
Theodore—it's all right, darling; I have met your father and we took to one another from the first. He even went so far as to borrow \$100 of me. Surely he can't refuse you your hand after that. Edith—Dor, I'm afraid you've got to tell me about it. I've got the \$100 and said I'd better give you up; that was too easy going—London Scapes.

Her Opportunity.
"I've come to give notice, ma'am." "Indeed?" "And would you give me a good reference, ma'am?" "I'm going to Mr. Jones, across the way." "The best in the world, Maggie. I hate that woman."—Life.

The Epistle's Talk.
The epistle who borrows us, who is a very sure to let us know his mind. —Catholic Standard and Times.

What's the Use?
If I were William Shakespeare, Pope or even great poetic saint, I'd give up and write a tragedy. But what's the use? I know it all. —Judge.

THE AEROPLANE.

Keeping It Properly Balanced is a Difficult Task.

An aeroplane may be defined as a surface propelled horizontally in such a manner that the resulting pressure of air from beneath prevents its falling. A balloon can remain stationary over a given spot in a calm, but an aeroplane must be kept in motion if it is to remain in the air. Such a plane literally runs on the air like a skater gliding over ice. The most familiar example of an aeroplane is the kite or your boyhood days. We all remember how we kept it aloft even in a light breeze by running with it against the wind. Substitute the pull of a propeller for the cord and the aeroplane flying machine is created. If this were all, the problem of artificial flight would have been solved long ago. There remains the apparently difficult art of balancing the plane so that it will skate on an even keel. Even birds find it hard to maintain this steady balance, and we, too, must learn to do so. A hawk, for example, side to side as he soars, like an acrobat on a tight rope. Occasionally a bird will catch the wind on the top of his wing, with the result that he will capsize and fall some distance before he can recover himself. If the flying aeroplane is to be a success, it must be able to do this. It is a difficult task, but it is one that must be mastered if we are to discover the secret of flying.

As the pressure of the wind on the wing is the same, you must, as you climb out of the outrigger for enough for your weight to counterbalance the wind pressure, so that you will not be blown about by the wind. The pressure of the wind on the wing is the same, you must, as you climb out of the outrigger for enough for your weight to counterbalance the wind pressure, so that you will not be blown about by the wind.

MAGIC OF THE BASS.
Memories of the Battle That Linger With the Angler.
The Indian name for the bass is "the bass," which translated means "the bass." He is said to be much like other black bass in appearance. But his habits are quite different. He is said to be much like other black bass in appearance. But his habits are quite different.

London Smoke.
The smoke nuisance in London is so old that those who work in it are said to be "smoke-blind." It is said to be much like other black bass in appearance. But his habits are quite different.

Various Kinds of Meters.
"Meteors" and "meteorologists" have little in common, although the word is identical. "Meteor" means a great many more things to Englishmen of a few generations ago than it does now, and it is a word of many meanings in Greek antiquity, which signified "in the air," so that "a meteor," the things up in the air, meant the heavens, and the things down in the air, meant the earth. The word "meteor" has gone over altogether to the astronomer's sphere.

Duke Necklace Finished.
With the possession of a pearl "dog collar" necklace, for which her husband paid \$200,000, Mrs. James B. Duke, formerly in the hands of a man of Atlanta, now in his readiness for her ambitious effort to enter the ranks of the New York Four Hundred. With a necklace of pearls, she was a woman of the New York Four Hundred.

Infinitesimal Shears.
A clever workman in a cutlery factory in Sheffield, England, made a set of pairs of shears, each so minute that they altogether weigh less than half a grain. That is about the weight of a postage stamp, and the shears are perfect and will cut it sufficiently delicate to be used as a piece of white paper they seem no larger than dust.

An Easy Mark.
Theodore—it's all right, darling; I have met your father and we took to one another from the first. He even went so far as to borrow \$100 of me. Surely he can't refuse you your hand after that. Edith—Dor, I'm afraid you've got to tell me about it. I've got the \$100 and said I'd better give you up; that was too easy going—London Scapes.

Her Opportunity.
"I've come to give notice, ma'am." "Indeed?" "And would you give me a good reference, ma'am?" "I'm going to Mr. Jones, across the way." "The best in the world, Maggie. I hate that woman."—Life.

What's the Use?
If I were William Shakespeare, Pope or even great poetic saint, I'd give up and write a tragedy. But what's the use? I know it all. —Judge.

Keeping It Properly Balanced is a Difficult Task.
An aeroplane may be defined as a surface propelled horizontally in such a manner that the resulting pressure of air from beneath prevents its falling. A balloon can remain stationary over a given spot in a calm, but an aeroplane must be kept in motion if it is to remain in the air. Such a plane literally runs on the air like a skater gliding over ice. The most familiar example of an aeroplane is the kite or your boyhood days. We all remember how we kept it aloft even in a light breeze by running with it against the wind. Substitute the pull of a propeller for the cord and the aeroplane flying machine is created. If this were all, the problem of artificial flight would have been solved long ago. There remains the apparently difficult art of balancing the plane so that it will skate on an even keel. Even birds find it hard to maintain this steady balance, and we, too, must learn to do so. A hawk, for example, side to side as he soars, like an acrobat on a tight rope. Occasionally a bird will catch the wind on the top of his wing, with the result that he will capsize and fall some distance before he can recover himself. If the flying aeroplane is to be a success, it must be able to do this. It is a difficult task, but it is one that must be mastered if we are to discover the secret of flying.

MAGIC OF THE BASS.
Memories of the Battle That Linger With the Angler.
The Indian name for the bass is "the bass," which translated means "the bass." He is said to be much like other black bass in appearance. But his habits are quite different. He is said to be much like other black bass in appearance. But his habits are quite different.

FORTUNE IN A WALL.

Treasure Seekers Make a Raid on Old Inns in Ireland.

County Cavan just now is a sort of Tom Tiddler's ground, where all the people are in expectation of picking up a goodly haul. The cause of this is the extraordinary discovery of \$5,500 in gold secreted in the wall of a public-house in the county. The "find" had so excited the popular imagination that all the old public-houses for miles around were being searched for hidden treasure.

The hoard was found some days ago in a cash box concealed in one of the inside walls of a public-house in Glenelgin, which had belonged to the late Mr. Thomas Cosgrove, vice-chairman of the Enniskillen Rural District Council, who died some time ago. The hoard was found by a nephew of Mr. Cosgrove, named John, who died recently, was manager of the place during his uncle's lifetime, and for some time subsequently. The discovery of the hoard, which was made by a nephew of Mr. Cosgrove, named John, who died recently, was manager of the place during his uncle's lifetime, and for some time subsequently.

NEW DIAMOND FIELDS.
Actors Join the Digger Swarm Fortune Hunting at the Cape.
According to the Cape newspapers, swarms of fortune hunters are reaching the diamond fields which have been opened to alluvial diggers at Pekaia, a regular stream of fortune hunters is reaching the Cape. According to the Cape newspapers, swarms of fortune hunters are reaching the diamond fields which have been opened to alluvial diggers at Pekaia, a regular stream of fortune hunters is reaching the Cape.

SWEET POTATOES.
Proper Temperature Should Be Provided to Prevent Rot.
In order to lessen or prevent rot the potatoes should be perfectly dry when put in storage and kept dry throughout the period of storage. During the sowing period just after the roots are stored care should be taken to see that proper ventilation is provided so that the temperature be kept at about 70 degrees. The temperature, in case enough roots are stored to make the erection of a regular cellar profitable, may best be secured by means of a small stove. Where the roots are stored in the usual dirt-covered pits it is important not to allow water get on them whenever they are opened to remove any potatoes. The storage requires a certain amount of moisture for its most successful development, and this is too often furnished by carelessness in opening these piles.

London Smoke.
The smoke nuisance in London is so old that those who work in it are said to be "smoke-blind." It is said to be much like other black bass in appearance. But his habits are quite different. He is said to be much like other black bass in appearance. But his habits are quite different.

Various Kinds of Meters.
"Meteors" and "meteorologists" have little in common, although the word is identical. "Meteor" means a great many more things to Englishmen of a few generations ago than it does now, and it is a word of many meanings in Greek antiquity, which signified "in the air," so that "a meteor," the things up in the air, meant the heavens, and the things down in the air, meant the earth. Farm, Field and Garden.

Steam Cooking.

An Improved Arrangement of Piping for Quick Work.
The most common way of cooking grains and other food in barrels and cisterns is to insert the pipe which conveys the steam from the boiler into the contents of the barrel and allow the steam to pass out of the one opening in the end of the pipe and rise through the slop or soaked feed. By this plan a good deal of steam escapes on the surface before it is exhausted. An improved arrangement of this way of turning the steam into the feed is illustrated in the drawing.

STEAM COOKING.
In the drawing, one drawing shows two pipes which have been arranged at right angles at the end of the barrel pipe, and the other shows the barrel pipe with a circular pipe around the bottom. In the upper surface small holes have been bored to allow the escape of steam, as in the first instance. The food is cooked with this kind of an arrangement of pipes it is more quickly done and it is a steam than where a single opening is used—J. W. H. H.

The Sub Target Again.

The poor old Advocate is getting so hopelessly mixed on that sub-target affair that no one will be able to unravel it if it keeps on. It now says it made a mistake and instead of the company making a profit of \$80 it should have said \$9 on each machine. It seems to take the Advocate all its time to correct its own mistakes. The fact of the matter is it is playing a game of bluff and does not know what it is talking about. We draw the Advocate attention to the discussion before the Public accounts committee last week in the House of Commons when Mr. Foster asked for original documents bearing on this question and he was voted down by 30 to 17, and the committee refused to hear evidence on copies because they could not be proved to be the same as the original. Mr. Blain (Conservative, Peel) however thought the evidence should be taken irrespective of the rules of a court of law, and pointed out that as the guns cost \$50 and were sold for \$250 fullest investigation was essential.

Does that look as though there was anything wrong? The Advocate in another column said with regard to original documents:

"There was a good deal of fencing, as there always is over questions of procedure, but the original documents asked for by Mr. Ames were finally brought down by Sir Wilfrid, and the present content established, for good and for all, that the originals are always accessible to members of the House. That is a right which is in the public interest, and if there have been any abuses of that right, the good sense of the House should bring the offenders into line."

The Advocate thus answers itself in its own columns. It says the News stands convicted of charging crookedness and graft where there was really no such thing. The Liberals in committee refused to produce original documents because they knew said documents would show them up in their true colors.

The Advocate goes a long way around to prove that Senator Loughhead is opposed to provincial rights. He voted with the majority in the Senate a short time ago against changing the rules of the Senate for a certain purpose. Of course the majority of the Senate are Liberals and it was they that voted it down, but that does not appear to have occurred to the Advocate. We presume Senator Talbot voted for the change.

The Calgary Albertan says:

The estimate made by Clifford Sifton of the timber wealth of Canada does not include the wooden men who take up the time of the country, yelling scandal."

You bet it doesn't old boy. That comes a little too close to Cliff. to be pleasant.

Changes in Calgary Herald.

The Morning Albertan says: The Southams, proprietors of the Hamilton Spectator and the Ottawa Citizen have secured an option on a portion of the stock of the Calgary Herald. It is understood that the option is upon stock owned by J. J. Young and that Mr. Young, who has been in control of the paper for a number of years will in future devote his attention to the job department which will no longer be connected with the newspaper.

The Hamilton Spectator, one of the Southern papers, announces in a recent issue that W. J. Watson, of that city had secured the option, and that he has left for the West. He is brother-in-law of William Southam, of the Spectator.

company.
Mr. Watson, it is announced will be secretary-treasurer of the company, and W. H. Woods, editor and manager.
Some time ago it was announced in the Herald that an important change would be made in the management in February, and this is doubtless the change that was referred to.
Mr. Watson, who will join the staff of the Herald is a banker.
For some time the Southams have been endeavoring to get a newspaper in the West, and negotiations were opened for the purchase of the Winnipeg Telegram. The two Southam papers are intensely Conservative.
Mr. Watson will arrive in the city to-day.

A Sad Accident.

(Insufficiency Province.)

On Thursday January 30th, a sad and fatal accident occurred at McInroy's saw mill on the Raven river.

Peter Anderson, a Swede, was at work in the bush cutting down trees when one came back and struck him on the head, crushing him to the ground. The peculiar part of the accident was that it was a third falling tree that struck him, not the one he had been working on.

Medical assistance was immediately summoned and Drs. McManis and Lyon immediately left for the scene of the accident.
It was impossible to do anything however, and the unfortunate man died just 12 hours after the accident.

Deceased was a native of Sweden, aged 55 years, who has for some time been living on a homestead west of Markerville. A search of his effects can find no relatives, although a brother is supposed to be living in Sweden. He was a bachelor. Corporal Rogers is taking charge of his effects.

KING OF PORTUGAL SHOT.

Liabon, Feb. 3.—King Carlos of Portugal, and the Crown Prince Luiz were assassinated, and the king's second son, Emanuel, wounded by revolutionists late Saturday afternoon.

January School Exams.

The following pupils obtained 50 per cent. and over in the various forms in January:—

Standard VI, Arithmetic:—Chas. Carswell 100 percent, Blanche Eastman 92, Lottie Markell 87, Ella Bremner 83, Andrew Munro 70, Alice Grant 70, Naomi Wilson 70, Ida Tait 67, Gordon Fulmer 67, Russell Calkins 65, Lizzie Bjorkgren 60.

Standard V, sr.:—Phillip Galbraith, Leonard Gaetz and Nina Goodman eq. Eva Givins, Leland Lockhart, Wallace Doran, Jessie Gudmundson, Nellie Postill, Harold Lockhart, Sadie Smith, Edna Lund, Myrtle Smith, Etta Calkins, Geoffrey Mott, Charlie Bremner, Joan Galsdon.

Standard V, Jr.:—Pearl Hall, Olive Smith, Ida Green, Evelyn Brumpton, Desmond George, Emma Gudmundson, Lillian Bayntine.

Standard IV.—Number of marks obtainable, 975:—Waldo Huestis 723, Hattie Hill 670, Ormston McKee 624, Ernest George 603, Charlie George 587, Frank Doran 547, Florence Heanski 542, Byron Geisinger 531, Agnes Bjorkgren 507, Oscar Ware 490.

Standard III, sr. Number of marks obtainable, 900:—Leonard Huskins 300, Teresa Meeres 571, Beatrice Foreman 559, Freddie George 551, Mary Fleming 553, Adrian Ivey 550, Jennie Patterson 492, Richard Calkins 471, Douglas Wilton 462, Grace Bower 454.

GAETZ AVENUE.

The Sub-Target in Committee

Ottawa, Feb. 4.—The obstructive tactics of the Liberal lawyers, who are members of the Public Accounts Committee, in seeking to throttle enquiry into scandals connected with the management of government departments, this morning led to one of the most extraordinary and wildest scenes which ever took place before a committee of the House of Commons. At times the meeting was in a perfect uproar, a dozen members were on their feet at one time, shouting angrily across the room, whilst personalities of a particularly pointed character were freely exchanged. The Minister of Public Works and the Ex-Minister of Railways were the subjects of two particularly cutting retorts.

A new feature in connection with the conduct of the proceedings was a fact which is now becoming apparent that Mr. Macdonald and Mr. MacLea, the Liberal members for Leamington and Lunenburg, respectively, are no longer to fulfil alone the role of arch-obstructionists. Mr. J. W. Pugsley, Minister of Public Works, Ex-Minister of Railways, Emerson, Honore Gervais, the French Liberal member for the St. James Division of Montreal, came to the assistance of the other two, and between them they succeeded by their trivial objections in preventing evidence being taken.

It was the second enquiry into the affairs of the Sub-Target Co., which gave rise to all the trouble. After the committee had taken evidence in another matter Mr. H. F. Wickwire, who was partially examined, yesterday, as to his connection with the concern, was called to give further testimony. He was taken in hand by Hon. Geo. E. Foster, who, however, had not gone very far when Mr. Macdonald jumped to his feet and objected to the witness being questioned as to a letter from Mr. Jewell on Sept. 30, 1904. Mr. Macdonald's contention was that Mr. Foster had no right to put questions on this point as he had only a copy of the opistle.

"Is it a manufactured document?" he said.

"Why do you call it a manufactured document?" enquired Mr. Foster warmly.

"Because you have not got the original and you will not say you have got it," replied Mr. Macdonald with equal warmth. "You are quite out of order and quite out of fact when he says that," said Mr. Foster.

"Why have you not got the original?" interjected Mr. Macdonald.

"That's none of your business," retorted Mr. Foster sharply, "but I will tell you one reason and that is I have not got it because this witness who was ordered to bring the papers has not done so. Why has he not done so when he was ordered by the committee. This gentleman has a very poor memory, he has failed to bring the documents with him. I want to prove that he had most intimate knowledge, and that he and Mr. Jewell had a great many letters and a great deal of correspondence, and that underlying that correspondence was something which closely attaches to this department. The Sub-Target company was kept up and carried on for the purpose of exploiting the Militia Department to get a contract for the machines. They got gentlemen like Mr. Wickwire and others who had influence with the department.

Mr. Macdonald concluded that, although Mr. Foster claimed that the letter he quoted was the copy of an original, he had not the slightest evidence of the existence of an original. No court of law would permit a witness to be examined in this way.

Mr. Blain (Conservative, Peel), however, thought the evidence should be taken irrespective of the rules of a court of law, and pointed out that as the issue cost \$50 and were sold for \$200 fullest investigation was essential.

The motion by Mr. Foster to have the originals produced was lost 30 to 17.

Post Office Guide.

Doors open from 8 a.m. to 9 p.m.
General Delivery Wicket open from 8 a.m. to 7 p.m.
Money Order Wicket open from 9 a.m. to 6 p.m.

Sundays, the doors are open from 11 a.m. to 3 p.m.

BOARD OF TRADE.

At the monthly meeting of the Board of Trade on Tuesday evening there were present W. J. Botterill, vice-president, in the chair; Messrs. Munro, secretary, R. L. Gaetz, Bawtinheimer, Reibholz, H. W. Clarke, Caswell, Nelson, Best, J. Wallace, Galbraith, Carswell, Cole, Messrs. Bower, Jamieson, Cote and Ward were present as a deputation from the Red Deer A. F. A.

Grading of Alberta Grain.
Mr. R. L. Gaetz, on behalf of the committee appointed to attend A. F. A. meeting regarding the grading of Alberta oats, reported that he and Mr. Welliver had waited upon the A. F. A. meeting, which had appointed a committee to discuss the matter with the board. Mr. Gaetz believed that the lack of a proper grading for Alberta oats was a great injury to the country.

President Bower, of the A. F. A., spoke of the matter for a better grade for Alberta Oats, being presented to the Grain Commission, and Mr. Bower had seen this report to Parliament that they recommended a grade of oats to be known as No. 1 Alberta oats. They asked representation also on the Grain Standards board, and the commission recommended an additional member. A member has been appointed from Northern Alberta, but he was not accessible to the farmers. The Grain Standards board has not power to add or to change the commercial grades for oats and the Grain Growers' Association of Manitoba has urged upon the government that they give this power to the farmers.

Thos. Lyons, manager of the Brackman-Ker elevator at Strathcona, was one member and Mr. Fairfield of Southern Alberta, has been added to the recommendation of the Secretary of the A. F. A. He doubted whether there was any chance of reversing the grades set on 1907 oats.

There was a unanimous conviction that Alberta Oats weighing 50 lbs. and 94 per cent unfrosted, should not be graded "rejected" it was an outrage. Mr. Gaetz said, Mr. Jamieson would get after the Dominion Minister of Agriculture to have the Grain Standard board re-constituted, and a better grading fixed. There was a lot of oats unsold yet. Mr. Gaetz would have the A. F. A. Provincial Executive lead the way, and have the Boards of Trade back then.

As to grain grading, Mr. Jamieson said Mr. Cote desired to see the wheat should weigh 60 lbs. per bushel for No. 1 grade instead of 52 lbs. Mr. Jamieson figured out that the loss of a grade because of lack of weight was a serious thing to the seller. Mr. Cote did not see why the Alberta grain should be discriminated against by imposing a heavier weight per bushel. He would have all the Alberta grain distinctly graded. The chairman showed that frosted wheat could be put to several uses, but frosted oats, as they could not be used for roller oats, became feed oats and as such were graded. Mr. Ward thought a grade could be established which would admit a certain percentage of frosted oats. The chairman and Mr. Cote showed that heavier oats meant superior quality. The word "sound" in the old grades, Mr. Bower said, caused the trouble with frosted oats. Mr. Jamieson thought feed oats should be graded as well as the milling oats.

As representatives delegates from the Farmer's associations were to meet at Saskatoon on the 14th, and would consider this among other matters, it was decided to await the action of that meeting. The chairman of Alberta grain. When the grading is taken the committee of the Board on the matter will act with the local A. F. A. in backing up the action decided upon by the joint associations.

Pork Packing Plant.
The suggested pork packing establishment and its location was discussed. Mr. Bower thought the first thing was to convince the Government that they should build this pork packing plant. Mr. Jamieson urged action in Red Deer's behalf and would give a site if necessary. Mr. Oulmette reported that Mr. Moore, the local member, was in touch with the situation, and would act at the opportune time. Mr. Cote thought the Town Council should be asked to assist. Messrs. Oulmette Gaetz and the Secretary were appointed to draft a letter to Mr. Moore, urging the institution of a pork packing plant.

Mr. Gaetz reported that Mr. Moore had told the Secretary and himself that he expected the bridge at Red Deer would be proceeded with this year.

The A. F. A. deputation was cordially thanked for their presence, and Mr. Jamieson suitably responded. Mr. Oulmette suggested some reciprocal interchange whereby members of each organization should be free to attend the meetings of the other.

Better Express Rates wanted.
Mr. Cote wanted better Express rates from Calgary and free delivery at Red Deer. The freight rates from Winnipeg to Morden, the same distance as from Calgary to Red Deer, were higher than the latter, but the express rates on small parcels including delivery, were half. The prepaid rates from Winnipeg to Calgary were no higher than from Calgary to Red Deer.

Mr. Wallace gave notice of motion that he would move for the appointment of a railway committee to consider these and other matters.

Correspondence.

The Montreal Star's letter re-advertising was referred to the appointment of a railway committee to consider these and other matters. The Montreal Star's letter re-advertising was referred to the appointment of a railway committee to consider these and other matters. The Montreal Star's letter re-advertising was referred to the appointment of a railway committee to consider these and other matters.

Deer would be given a space of 150 ft. at least, he hoped as the Fair. The chairman spoke of his visit to Mr. Richardson, further details of which he would give the Executive, who would then report.

The Gleichen Board of Trade asked the support of the Red Deer Board of Trade for the location of the Provincial Agricultural College at Gleichen. No action.

The Calgary Albertan wished a write up and cuts of Red Deer for their special edition of Feb. 20. Referred to Executive.

The appointment of the Executive stood over until the return of the President Mr. Brumpton.

The meeting adjourned at eleven o'clock.

The Great North Land.

For good, solid information, respecting the north country, the address of J. K. Cornwall, before the Canadian Club at their luncheon on Monday last week at Edmonton was the best. There has been said the Journal. "Jim," as his friends call him, boasts of no style in oratory, but he is as solid as a rock, and is full of the subject of the great north land. His earnest, straightforward talk of the "needs of the north," to the business men of Edmonton was a convincing argument that since the future of their city is dependent upon the development of the north, it is up to their citizens to see that the needs of that country are not neglected.

That they have been neglected was quite evident from some of the statements of Mr. Cornwall. Since autonomy was granted the new provinces, the Alberta Government has spent only \$10,000 on the construction and improvement of roadways, in spite of the fact that almost 90 per cent of the land, and in lieu of which the Alberta government had received half a million dollars was north of Edmonton. The burden of Mr. Cornwall's address went to show that the development of the north was being seriously retarded by the fact that many of the roads are impassable, resulting in enormous expense and trouble to the settler in getting his effects into the country.

THE GREAT NORTH LAND.
Before proceeding directly to the discussion of the needs of the country which he represented, Mr. Cornwall took his audience on an imaginary tour of the north. He reached, picturing vividly the physical features of the country, with its limitless and undeveloped resources.

For 100 miles northeast of the city the country did not differ from that of the south. For one hundred miles further to Fort McMurray the country was not an agricultural one. From Fort McMurray along the Athabasca, the country undergoes a decided change. For 150 miles on the Athabasca river tar sand is found, and boring for oil is being carried on there. Going still farther down, to Athabasca Lake, the country assumes a rocky formation, much as the district in the vicinity of the Lake of the Woods. This rocky country is highly mineralized, and there are to be found copper, silver, gypsum, salt and other minerals of a highly valuable nature.

TIMBER IS PLENTIFUL.

The west side of the Athabasca, said Mr. Cornwall, is thickly wooded. He had no hesitation in saying that the timber reaches along the Athabasca for miles and miles, and enough timber to build all the houses that would ever be built on the prairie in our time.

The speaker referred to Great Slave Lake as the largest fresh water lake in the world, in which fish of all kinds abounded.

Up the Slave river to Salt river, one reached the most northern point in the province. Here were great salt springs, supplying the Indians and settlers for miles around with salt. The wild buffalo were also in possession of this section of the country, in area about 150 miles long by 40 miles wide. These were the only wild buffalo in the province.

Passing on from Lesser Slave Lake he came to the famous Peace River country. The Peace river, said Mr. Cornwall, was 1,000 miles long. It was navigable for 300 miles with the exception of a small stretch of five miles and a half, where there was an upheaval in the river, giving forth tar. This tar is of the purest nature and burns freely. Here was a splendid irrigable section of country, in area about 60 miles wide and 100 miles long, bisected by the Peace River and the centre of which was Vermilion. Vermilion, said Mr. Cornwall, was 750 miles north of the American boundary, and the settlers here grew No. 1 wheat, the best grain grown on the North American Continent. (Applause.) Mr. Cornwall exhibited some samples of wheat grown at Vermilion this summer, which brought forth exclamations of admiration.

Speaking of the country between Edmonton and the Peace, Mr. Cornwall stated that about half of it was excellent, with the exception that it was an earlier country than that farther south. The grain matured in about 120 days. The rapid growth was accounted for in a measure by the fact that in the summer there were 22 hours of daylight each day.

THE IMMENSE FUR TRADE.

The resources of this great north country, continued the speaker, had not been developed with the exception, of course, of the fur trade. Fully a million dollars of fur was brought out of that country annually. This immense fur trade was directly or indirectly passing through Edmonton. Passing on to speak of the enormous traffic in freight to the north country, the speaker stated that last year, in the open months, 1,935 tons of freight had been moved from Edmonton to Athabasca Landing on wheels. To show the immense cost of moving this freight, Mr. Cornwall quoted the rate as \$1 per hundred, for a distance of over 37 miles. At present most of the freight beyond Athabasca Landing was done by the waterways. The north, said the speaker, had 4,000 miles of the finest natural waterways in the world. If it were not for the waterways it would be impossible at the present time to get into the Peace river country.

Commenting on the steamship navigation Mr. Cornwall said that \$3,300,000 had been invested in steamers for the northern rivers. The Hudson Bay Company were now building a large new steamer at a cost of \$30,000 to replace an old steamer.

THE NORTH CRYING NEED.
Mr. Cornwall here plunged into a scathing denunciation of the condition of northern trails, especially a portion of road, 30 miles in length just beyond Peace River, which he characterized as "the fiercest piece of road he had ever encountered." He was an optimist, but when it came to northern roads he was a pessimist. A Liberal in politics he was not afraid to state that the Alberta government had fallen short in their duty towards the northern country. He said the particular price of road referred to had broken more wagons and discouraged more settlers than will fill this room. He told of how Lt. Gov. Bulyea had once given him \$300 to build a bridge on this trail. (Applause.)

The speaker intimated the case of Sheridan Lawrence, who was taking binder twine up to his farm in the Peace River. He used his every influence to obtain men to portage his shipment of twine over the bad roads of the Lesser Slave Lake, and when he finally got it to his home, it had cost him 6c. a pound over and above the purchase price. It was true that the settler in the Peace River country could get \$2 a bushel for his wheat, but he could not sell it very easily. What they wanted up north was a market, and they could not look for a market until they had good roads.

Mr. Cornwall advocated the establishment of trunk lines direct to the Peace. Until these were obtained he said, it would be impossible to properly develop the north country. When the provinces had been formed the north settlers thought they would surely have good roads at once. The third session of the legislature had been reached and not over \$10,000 had been spent. It is all right to build universities and other things, but give a man a chance to get his bread and butter before they wanted universities.

The future of Edmonton said the speaker, depended on the opening of the north country. "If we don't help ourselves," said Mr. Cornwall, nobody else will. The Board of Trade has seen very good, but he wanted to get the legislature to do something. "We are non-political up north," Mr. Cornwall said. "We want everything and the people who give us what we want are our people every time."

"We have got the country," continued the speaker. "We have got what you in the south have not got. We have copper, silver, salt, tar, oil, but what we want now is trunk lines into the country. We want the co-operation of the Edmonton business men." Edmonton would always be supreme in the control of the north land trade, said the speaker. He concluded with a strong appeal for co-operation on the part of the business men to help the north country in its needs.

Lt. Bulyea, who presided at the luncheon in a neat little speech, then read the thanks of those present to Mr. Cornwall for his very interesting address.

Is still swinging in our store, and its accompanying tick of Cheapness has proved loud enough to attract the attention of the majority of the people.

MERCHANDISE IN THE WEST AT EASTERN PRICES!

That's what we have to offer the people of Red Deer and vicinity for the coming season. We have made arrangements with the largest and best Wholesale House in Toronto, whereby we are now buying our goods at Toronto prices and having the freight fully prepaid to our station in Red Deer. This means the saving of hundreds of dollars to us each year, and this saving we intend giving to our patrons. For instance: Fine English Prints, Chambrays, Gingham and Wash Goods sold all over the west for 15c. yd., our new price for Spring, 1908, will be 12 1/2c. yd.

Our New Laces, Embroideries, Lace Curtains, Prints and Gingham are now in, and new goods are continually arriving. We will show this Spring the most complete assortment of Dry Goods ever shown in Red Deer, and though many lines have advanced in price, our fore-buying, Cash Selling and Cash Buying enables us to do almost every line at old prices, and many lines lower.

We have a few Winter Goods left in stock, which we wish to refer to, and which will be cleared at very low prices:

Men's Wool Underwear, 60c.

Men's All-Wool Undershirts and Drawers, ribbed or plain. Regular \$1.00 values.

February Sale Price, 60c.

Blankets and Comforters, One-third Off.

We have a few left in stock, and during this Sale they go at one-third off. That means \$4.50 Blankets for \$3.00, and so on.

Lace Curtain Samples.

We have about 8 doz. Lace Curtain Samples, which we are clearing out at a very low price. They run from

15c. up.

Men's Fine Shirts, 45c.

About 4 dozen in the lot, assorted sizes, some slightly soiled, most of them perfect. Values range from 65c. up to \$1.25.

Your Choice, 45c. each.

New Corsets, 75c. pair.

Our stock of Corsets is too heavy, and we wish to reduce them. There's about 5 dozen in the lot and the styles are right up to date. Colors, white and drab; with and without suspenders attached. Values run from \$1.25 up to \$1.50.

Your Choice, 75c. pair.

Bearskin Coats, \$1.50.

5 only Children's Bearskin Coats. Regular value \$2.50 to \$3.00.

Sale Price, \$1.50.

4 only Red Elderdown Jackets. Regular value \$1.25.

Sale Price, 50c. each.

Ladies' Ringwood Gloves, 20c. a pair.

Are your gloves becoming thin? If so, here's an opportunity to get your choice of gloves valued at 35c. to 50c. for

20c. Pair.

SALE STARTS SATURDAY, FEBRUARY 8TH, 1908.

IN AND OUT.—If you try as hard to get the fullest value out of your dollars as we try to put the greatest value into your dollars, we'll get your trade.

The Matter of Seed Grain.

Edmonton Journal.

While there is no question as to the desirability of providing farmers with seed grain, there seems to be some difficulty in arriving at a solution as to the best method of distributing the same. It is not likely that any one particular method will be universally satisfactory and complaints may be expected; but that should not deter the government from enforcing whatever proposition it deems best.

M. S. McCarthy, M. P., Calgary, in the discussion in the House on this matter, reminded the government that there should be no discrimination between the man who has a homestead and the one who has only served a year or two for his patent. He urged the test should be, does he need it, and not the date of his arrival.

The position taken by Mr. McCarthy is a sound and reasonable one. As far as can be ascertained about the only scheme the government has on hand is the lending of money to the farmers on first mortgage and in application of this policy it will be seen that Mr. McCarthy took a stand in the interests of fully fifty or sixty per cent of those needing seed. A very large per cent of our farmers have not yet secured a clear title to their property for the reason that the greater portion of our western lands is bought on agreement of sale with instalments extending over a period of years. All railway and other company lands are bought on that system.

Many of those who have paid up their instalments have already raised money on the first mortgage and homesteaders who have not fully performed the duties required under the homestead act cannot mortgage their holdings.

It would appear then that the idea of advancing money on first mortgage is wholly impractical and that some other arrangement must be contrived.

A few years ago the government undertook to supply the farmers of Nova Scotia with hay. The arrangement was carried out very satisfactorily through the municipal councils which correspond to the local improvement societies in this province. Orders were taken by cheque and the financial arrangements made with them so that upon the delivery of the hay, the money was paid over to the clerks who remitted to head quarters. Some such scheme as that must be devised in this case, otherwise difficulty is sure to arise, and the province as a whole may be ultimately called upon to pay its share of the distribution of this seed. It is not likely that the farmer who has plenty of seed grain would feel like paying an assessment to help his less fortunate brother.

It should be possible to arrive at an estimate as to what quantity of seed there is in the province and who are the parties in possession of it, so that those needing it, or the government if it be made the purchasing agent, may know where to get it, and thus any money put into circulation will be within the province. It might be possible in the case of homesteaders who have not obtained patents, to make the money or grant first charge to be liquidated before or at the time of obtaining patent. Those holding their lands on contracts should be permitted to give seed grain liens or other suitable undertakings. The first mortgage plan in any event, seems unsuitable to western conditions and therefore unworkable.

It will be a most deplorable thing if political capital is made out of this matter. We have no doubt however, that such will be the case. A candidate had pressed, will ask the people who it was that came to their assistance when they wanted grain, but the Liberal party. While this will be more or less true, nevertheless, the shortage is one which touches the common interests of the western people regardless of racial, social or political complexion, and it would be taking an unfair advantage of the present unfortunate circumstances by pointing out to our farmers what they owe to the party in power. The distribution is not a charitable one, and no man should be placed in that position where he would feel it incumbent to support the government because it provided him with seed grain. It is, or should be the primary purpose of all good government to protect and enhance the interests of the people as a whole.

Thaw is Found Insane.

New York, Feb. 1.—Harry Thaw was acquitted of the murder of Stanford White shortly after noon to-day on the grounds of being insane at the time of the murder. Immediately the jury returned the verdict Justice Dowling committed the prisoner to the asylum for criminal insane at Mattawan, subject to his possible recovery.

SPECIAL OFFER.

We have made arrangements with The Weekly Mail and Empire, of Toronto, one of the leading and most influential papers of Canada, by which we can offer

THE NEWS

and The Weekly Mail and Empire until January 31, 1909, for the extraordinary nominal sum of

\$1.25

Both publications, each taken separately for the period mentioned, would cost nearly double. By accepting this offer subscribers get the two papers for a price very little in advance of the regular price of one.

The Weekly Mail and Empire is unquestionably the greatest weekly published in the Dominion, and possesses the broadest outlook on Canadian national life. It is essentially a paper for the home, and is valued alike in town and country. Its news service embraces every recognized source of information; its special correspondents are in all important centres, and over its specially leased wires it receives the happenings of the whole world, and publishes them simultaneously to the papers in all other places.

The Agricultural Section is an accepted standard authority on all matters relating to the soil and possibilities. Contributors to this section are men eminent in the world of agricultural science.

The Magazine Section is a mine of information on all subjects pertaining to science, literature, the fine arts, society and the home, many of the articles of which are embellished with bright and instructive illustrations.

The Weekly Mail and Empire has no equal as an expositor of House of Commons and Provincial Legislature happenings. Altogether the 24 pages which comprise The Weekly Mail and Empire constitute a complete library, the regular price for which is One Dollar a year.

Local and General

Cut flowers at Slade's.

H. C. Lund has returned to Red Deer.

John Wright returned from his visit to Ontario last week.

Frank Piper, of Calgary, is visiting his father Wm. Piper.

Sauerkraut, 4 pounds for a quarter at Ball & Drake's.

Miss A. Hewson has taken a position in Lord & Co's store.

Rev. Mr. Whitehead, of Innisfail, was in town Thursday last.

Mr. M. P. McCall retains an interest in the business of W. E. Lord Co.

Ball & Drake lead in hand made bologna, weiners and pork sausage.

H. B. George, of Bank of Montreal, Portage la Prairie, is home on a visit.

Mrs. J.H. Dempsey and Mrs. S. G. Cowan returned from Ontario on Monday last.

Order your bouquets now of carnations or roses for the Leap Year Ball, at Slade's.

If you want potatoes, cabbage, celery or any other vegetables call up Ball & Drake Phone 41.

Initials will make a bonspiel on Feb. 18, 19 and 20. Rinks are expected from all curling towns in the province.

John N. LePoidevin arrived in town from Vancouver yesterday. He has taken a situation with Smith & Gaetz as clerk, filling the vacancy caused by the retirement of St. Clair Brumpton, who has returned to Olds.

Red Deer No. 12, Kenilworth U. D. Venus Chapter No. 2, hold a Masonic At Home in the Lyric Theatre to-morrow evening to which a large number of the masonic fraternity and their friends are invited.

A Liberal paper, with characteristic candor, calls Mr. Rood the "alleged" Conservative candidate. The idea conveyed is that so many Liberals will vote for him that he might as well be called the Liberal candidate.

Mr. McPherson, late of McPherson & McCall, left for the east the early part of last week, where he will reside in future. Mr. McPherson made many friends during his residence in town, who will regret to hear of his departure.

Leithbridge Daily Herald—Mr. F. W. Galbraith and Mrs. Galbraith of Red Deer, have been the guests of the former's brother Dr. Galbraith. Mr. Galbraith is proprietor of one of the best weeklies in the province. The Red Deer Advertiser is expected to be present. The Master Masonic Degree will be conferred. All Master Masons are cordially requested to attend.

Kenilworth lodge, A. F. & A. M. will meet in the Masonic hall, Ross avenue, this Wednesday evening at 8 p.m. Very Worshipful Bro. J. T. MacDonald, Senior Grand Warden, is expected to be present. The Master Masonic Degree will be conferred. All Master Masons are cordially requested to attend.

Douglas MacLeod has decided to give up the florist business and Mr. Slade has taken it over and will devote his whole time to it, having resigned his position with the Calgary Lighting Co., for whom he has been travelling during the last 6 months. Mr. Slade comes back to his old business again, determined to give his many patrons satisfaction. He has already placed in stock a choice collection of ferns and palms and will very soon have a choice and varied stock of flowering plants, and also always have on hand cut bloom carnations, etc.

EYESTRAIN

In persons under forty years of age is caused by a Malformation of the eye which interferes with the proper focusing of the light rays on the retina. The malformation may be very slight and yet cause a great deal of distress. Properly fitted glasses will relieve the distress and give you comfort.

The Gaetz-Cornett Drug & Book Co., Ltd.

A. Galloway, of the Merchants Bank, has been promoted to the Medicine Hat branch of the Bank. He leaves to-day.

Inspector Boyce left last week for an extended trip to the east. He will visit a number of schools in Saskatchewan, Manitoba, Chicago, St. Paul and other places before returning to the west.

A social evening will be given by the Conservative Club in Alexandra Hall Monday next at 8 o'clock. All Conservatives will be heartily welcome. Come and bring your wife or lady friend. A good program and refreshments.

Red Deer coal is coming up in large quantities and of excellent quality. Over 20 big loads came up yesterday. There is a movement on foot among the coal haulers to get the names of all manufacturers and dealers who use Red Deer coal as they feel it their duty to patronize those who encourage home industry.

The Western conference of the Brotherhood of St. Andrew, in connection with the Episcopal Church will be held in Calgary Feb. 15th to 18th. Among the speakers are Archdeacon Harding, of Qu'Appelle, Archdeacon Gray of Edmonton, Rev. Mr. Du Penier, of Brandon and Hon. T. M. Daily, of Winnipeg. Several delegates will be in attendance from Red Deer.

We notice that the town band is again in existence under a new name The Red Deer Citizen's Band. The boys are working hard as any body can tell who goes within a mile of the Fire Hall any evening between 7 and 8 o'clock. The instruments are nearly all taken up but anyone who can read well and can play a horn is requested to pay a visit to Fred Hart who is acting as band master and help along this organization. The Band will play at the rink to-night.

Rev. J. R. Simpson, Presbyterian Minister, of Penhold, delivered a very interesting and instructive address on The Peace River Country to a good audience in Knox church on Wednesday evening last. Mr. Simpson spent the greater part of two years in this new land, and the fact of his being so successful in making his way to the seat of his missionary labors has qualified him to speak from experience in a convincing and enlightening manner, upon the possibilities of such a promising district. One of the most interesting facts mentioned was that pertaining to the climate, which, in many respects, resembles that of Eastern Canada. The choice of a climate with which we are occasionally favored, is felt there decidedly, and it is not unusual to see a large fall of snow disappear in a few hours. The soil is most fertile and wonderful yields are recorded from trees under cultivation. The lecture was illustrated with limelight views and altogether the evening was a pleasant one. One of the points brought out by the speaker was that all south of the Peace River should be called southern Alberta.

The new residence on the corner of Stewart street and McKenzie ave., owned by the late Mrs. McBrayne, has been sold to Mrs. L. M. Rutherford, the amount paid being over \$2000. The real estate firm of Pidgeon, Wallace & Miller negotiated the deal.

If you have Catarrh, rid yourself of this repulsive disease. Ask Dr. Shoop of Racine, Wis., to mail you free, a trial box of his Dr. Shoop's Catarrh Remedy. A simple, single test will surely tell you a Catarrh truth well worth knowing. Write to-day. Don't suffer longer.—Brown's Pharmacy.

One of the most successful trial evenings of the season took place at the English Cafe on Thursday evening last, when upwards of fifty ladies and gentlemen availed themselves of the invitations to play progressive whist, which were issued by Mrs. Sage and Mrs. J. A. Lewis. By nine o'clock twelve tables were in full swing and with exception of a short interval for refreshments, the play continued merrily until the small hours. At the close of the twenty-fifth game the cards were collected and W. P. Helliwell declared the result as follows: Ladies prizes—1st, hand-painted plate, Miss Nellie Hives, score 180; 2nd prize, Mrs. Pennington, score 142; Gentlemen's prizes—1st, cigar case, H. Longson, score 188; 2nd prize, Mr. White, score 152. On behalf of the players Captain Cottingham thanked Mrs. Sage and the ladies who had assisted her, for the enjoyable evening they had spent.

The Red Deer Bar Dinner.

The Red Deer Bar association held its first annual dinner at the Arlington on Tuesday night last, with Judge Noel as guest of the evening, the invitations being confined to members of the bar. The menu was a clever conception of Geo. W. Greene's and took the form of a law case. Among those present were Messrs. Poole and McDonald, of Lacombe; O'Brien, Wetaskiwin; Crawford, Dreese, Simpson, Payne, Moore, Gurnie, Red Deer. The following was the toast list:

"The King."
"The Dominion Parliament," J. C. Moore
"The Provincial Parliament," Corbet Durie.
"The Bench," Judge Noel.
"The Bar," J. L. Crawford.
"Our Guest," W. E. Payne, responded to by O'Brien, Wetaskiwin; Poole and McDonald of Lacombe.
Judge Noel proposed the health of the president.
"Court Officials," F. S. Simpson.
Messrs. McQueen and Morris furnished the music for the occasion.

Edwell.

There is quite a call for feed oats. We have not heard of any being sold however. Thirty cents has been offered.

It is reported that Mr. J. F. Honkes has been re-elected Secretary-Treasurer of this Local Improvement District.

Mr. C. E. Moore is absent in Calgary for the present. He has secured a position so we are informed, as hotel manager.

Mr. Will Ange has been laid up for two or three weeks in the Red Deer Hospital. His ailment is pronounced inflammatory rheumatism.

Rev. Dr. Riddel of Alberta College spoke in the school house Feb. 2 to a very attentive audience. He emphasized the importance of education upon the future.

Mr. Jimmie Wass returned from Strathcona the first of the week. He has unfortunately been confined to the Hospital for two months. He is visiting at Joseph Kendrew's.

There are in this locality very few pieces of fall wheat. The last season together with the unsatisfactory condition of the local market have caused many of the farmers to drop it. There is probably not over 20 acres seeded in this district.

Mr. George A. Ferguson has begun the construction of an ice house and storage building. He expects to run a cooling station in connection with cream collecting. He proposes to keep staple groceries on hand which he will deliver free of charge to his patrons. This is almost equal to the free deliveries of the cities. We are expecting to have Rural Free Delivery next.

Everts Items.

Post cards seem to be the latest fad at Everts.

Miss Patile Wild has been a guest at the Everts hotel for the past week.

Posters are up for a masquerade ball to be given at Markerville Feb. 14.

Gossips say that Everts is to have several new buildings in the near future.

Rev. Dr. Herdman of Calgary, and Rev. Wright, Presbyterian, visited several families west of the bridge the first of the week.

Following are the announcements of the church services at Everts: Rev. Tipping, Baptist, the second and fourth Sundays at 7.30 a. m. Rev. Wright, Presbyterian, the first and third Sundays at a. m. Rev. Robinson, Methodist, the second and fourth Sundays at 11 a. m., and Rev. Edwards, church of England, the second Sunday of each month at 11 a. m. Miss Inga Hallorsen visited friends in Red Deer last week.

A dressmaking establishment is soon to be opened in Everts. We are certain that this is a good opening and wish the seamstress every success in her undertaking.

C. P. Mellor of Red Deer, passed through town on Sunday.

Poplar Ridge.

Mr. Fred Fisher has gone to Winnipeg on a business trip. Mr. Ed. Bowen has been ill for the past week with a severe attack of Lumbago.

Mr. Dushaw, the Presbyterian minister of Willowdale exchanged pulpits with our pastor Rev. Goodfield last Sunday afternoon.

Whoever cleaned and prepared the school house so nicely for our Sunday meetings for the past two weeks certainly deserves great credit and a vote of thanks from our congregation.

Born.

In Red Deer on the 9th inst, to Mr. and Mrs. Fred Foreman, a daughter.

At Red Deer, on Feb. 4, 1908, to Mr. and Mrs. Leonard, a son.

At Red Deer, on Feb. 5, to Mr. and Mrs. B. F. Krause, a daughter.

At Red Deer on Feb. 2nd 1908 to Mr. and Mrs. E. A. Molson, a daughter.

In Vancouver, on Feb. 2nd, to Mr. and Mrs. John F. LePoidevin, a daughter.

Died.

In Red Deer, on Feb. 1st, Kermit Maurice, only son of Mr. and Mrs. Wm. Bryan, aged 7 months.

Successors to McPHERSON & McCALL.

FARMERS, TAKE A POINTER.

YOU will remember at the Seed Judging Schools here, on the 7th inst., one strong request made by two of the Judges was to the effect that the farmers should use more Fanning Mills. This was strongly urged upon you; especially in view of the fact that you would be using imported seed this year. Now, we sell the very Fanning Mill that is being used by the Experimental Farms and Seed Houses throughout Canada to-day, and we got this pointer as to the best mill from these same gentlemen a year ago, and have already sold a number of them, and they are giving entire satisfaction. There are mills that will clean faster, but none that will make a purer sample. We will sell you the Mill to clean your seed and wait until that seed returns you the profit for which to pay for the mill. Call and inspect samples, and get our prices and terms, and we know you will buy.
